

GENERAL KNOX WAS ASSAULTED

Attorney-General Rebuked the Men for Ungentlemanly Conduct.

THEY HIT AT HIM

Spends Day with the President at Oyster Bay.

EXPLAINS AFFAIRS

(Special By Scripps-McRae.)

Oyster Bay, Aug. 8.—Attorney General and Mrs. Knox are the guests of President Roosevelt at luncheon today. General Knox wishing to say good-bye to the President before setting sail for Europe.

Was Assaulted

In speaking of the assault that was made upon him at an Atlantic City hotel on Wednesday General Knox said: "It was in the Garden Hotel. I went there with a party of three ladies and while dining three men came in and their talk was so objectionable that I remonstrated and took the ladies from the room. Later I returned and told the men what I thought of their conduct. One of them made a lunge at me and I dodged it. Nothing was said about trusts or of that nature."

Story of the Attack

Atlantic City, N. J., Aug. 8.—Attorney General Knox was the victim of an attack here in the cafe of a hotel. The cause of the assault on Mr. Knox was his attitude on the trusts. His assailants were Charles T. Schoen, the multimillionaire of Philadelphia and Pittsburgh; Theodore Cramp, the Philadelphia shipbuilder, and a Mr. Stephenson, also well known in Philadelphia.

To make clear the dramatic features of this impetuous argument it is necessary to go back a little. The place of its occurrence was a certain aristocratic hotel. The time, 11:30 o'clock Wednesday night. In the cafe annex, a rustic little nook adjoining the cafe, was a table of eight covers, all of which were occupied. The central figure at this table was Attorney General Knox. Seated with him were three other men and four women.

Asked to Be Quiet

Mr. Knox and his party were well along with their repast when a carriage drove up to the hotel. Three men alighted. Charles T. Schoen and Theodore Cramp were two members of this party. The third was Stephenson.

The story goes that the newcomers talked loudly and were asked by a waiter to be quieter. The report goes on to say that Mr. Knox, too, made a similar request and left the room with the ladies.

Mr. Knox returned and strode over to the table occupied by Mr. Schoen, Mr. Cramp and Mr. Stephenson. In a moment all was confusion. Blows were launched wildly.

Just who struck the first blow cannot be said positively. But certain it is that even while Mr. Knox was making a protest to Mr. Schoen against his language he was being called names that startled every one within hearing.

Strikes Mr. Knox.

Then came a blow. It was struck by Mr. Cramp and landed fairly on the belt of the attorney general, who found himself opposed to three men, all much larger and stronger than he. The blow staggered him back against the wall.

At that moment a half dozen waiters rushed up. The head waiter seized Mr. Cramp from behind, pinning his arms. Another grappled with Mr. Stephenson and dragged him out of the struggle. Others took hold of Mr. Schoen.

Mr. Knox was speedily surrounded by his friends and the party quietly retired from the cafe and were driven away to their hotel.

This remarkable encounter had its origin several days ago in the corridor of the Marlborough hotel. It came about through a little discussion concerning trusts.

CHICKEN THIEVES ARE VERY MERRY

Steal Trained Hens, and Then Only Laugh at Owner—Queer Fun.

New York, August 8.—(Special).—Canarsie has been invaded of late by chicken thieves. Wednesday evening the chicken house of H. W. Schmeelk, Jr., was broken into and most of his choice breeders stolen. Schmeelk, who is a fancier, had a fine collection. He said today: "If they had been ordinary chickens I wouldn't have minded it, but these chickens are hard to get. Every morning all the hens came in the house and laid their eggs in a basket kept for that purpose in the pantry. I am just cut up about it, that's all."

Nervy Thieves

A neighbor of Schmeelk was awakened by the noise of the chickens as the men were at work and raised the window and yelled to the men to drop the chickens, when one of them coolly replied: "Good morning, counselor, we do not need your services quite yet," and then laughing the pair strutted off.

SPANISH FRIARS SELL FAITH CURE

They Claim To Be Able To Cure Cholera by Circulars.

(Special By Scripps-McRae.)

Washington, D. C., Aug. 8.—(Special).—An interesting account of a cholera cure, invented by the friars of Santo Thomas college, in the Philippines, and sold to the natives at 2 1/2 cents, Mexican, is contained in a copy of the Manila American received at the war department today. It is described as resembling faith cure, being issued in the form of circulars, at the top of which is printed "Saludable remedio contra la peste," which, translated, means "Remedy against the pest." Below this inscription is a cross and a prayer.

Circulars Sold These circulars were sold for 2 1/2 cents, Mexican, and according to the reports received an enormous circulation. Dr. Hermann, of the Manila board of health, in speaking of the issuance of the paper said:

"In the prayer itself there is no harm. If the natives find any relief from the terrors of cholera in prayer, by all means let them pray. The difficulty, however, does not lie in this direction. The spreading of these circulars through the land has a tendency to influence the natives against the practical efforts of the board of health to down the plague. It is by such means that the priests hold their power over the people and cause them to adhere to the old superstitions that even from the faith-cure standpoint could not be justified."

Are No Good "I certainly cannot commend the sale of these circulars, and believe that the influence of the priest has been an impediment in our campaign against the cholera."

ILLINOIS STATE CANAL WORK

Eighteen Miles Thus Far Completed—The Rest Is Surveyed.

Washington, D. C., Aug. 8.—(Special).—Maj. Willard's annual report relating to work on the Illinois and Mississippi canal made to the chief engineers of the army shows that excellent progress is being made on the project, the ultimate object of which is to construct a canal from Lake Michigan to the Mississippi river. In his report just made public he says:

"The work began upon the Rock river end of the canal in 1892, by the construction of a canal around the lower rapids of Rock river, four and one-half miles long, with three locks, three swing bridges and three lock-houses, seven sluiceways, and one arch culvert, which canal was opened to navigation on April 17, 1895, and has been since that date in successful operation. The Moline bridge across Rock river has been built."

At the date of this report the earthwork of eighteen miles of the eastern section has been completed. Some reinforcement of high embankments and lining canal where required with water tight compartments remain to be done. Earthwork on miles 19, 20, 24, 25, 26, 27 and 28 practically complete. For a distance of 900 feet on mile 20 sheet pile revetment is driven to preserve the banks.

Rest Surveyed "No earthwork has been done on miles 21, 22 and 23, but the preliminary work of preparing plans and specifications and acquiring additional right of way upon which to deposit waste material has been done. Stone bank revetment from mile 1 to mile 17 and on miles 26 and 28 is practically completed and well advanced on miles 18 and 27."

On his person were found the jewelry, several other watches and a handful of rings.

Curtis was wanted at Evansville for stealing a bicycle, which he had in his possession when arrested. He was brought to this city, pleaded guilty and was placed in jail to await the action of the circuit court.

Loudon," and beeches for beeches, the duke gravely wrote to the bishop of London, to the great astonishment of that good man, that his Waterloo beeches had "disappeared long ago."

MAN THROWN FROM BUILDING

A Drunken Workman Assaults His Boss, Then Jumps Through a Window and Runs Away.

New York, August 8.—(Special).—After a severe struggle with a powerful workman, said to be Patrick Henry, Hermann Brosky, foreman in the employ of Myer Helman, contractor, was thrown today from the top of a building to a pile of lumber, 45 feet below, and sustained injuries from which he may die. Brosky is at the Roosevelt hospital. His assailant escaped. The men were at work tearing down two three story buildings at 220 and 224 West Forty-ninth street.

Drinking Man Two weeks ago Brosky discharged Barry for drinking. Today Barry approached Brosky who was standing on the top floor. Angry words followed. Brosky ordered the laborer to go below, where he belonged. Then Barry closed in on Brosky, and, being the stronger, threw the foreman from the building. It is alleged, Barry ran to the first floor, seized his hat and coat, jumped through a window and ran away.

REPUBLICANS ARE NOW BUSY

THE FIGHT IN DANE

(Special A. D. Dispatch.)

Milwaukee, August 8.—Milwaukee is to be the headquarters of the Republican central committee, that is there are to be two headquarters, one in Madison where General Bryant is and the other here. State Senator Miller of Madison is authority for this statement and he also said that from now on the campaign would be pushed aggressively.

Contest in Dane As the time for the congressional caucuses approaches the fight between Leitch, Adams and Dahle for delegates becomes warmer and warmer. Dahle's leaders claim that the little Norwegian from Mt. Horeb will receive the united support of the Dane county republicans and that he will be nominated. "Cully" Adams is working hard for the delegates but will give no estimates as to his strength. The Leitch element is being looked after by "Little Johnny" Nelson, one of the Governors' staunchest followers. He has made a careful canvass of the whole county and is himself on the slate for a seat as delegate from the Fifth ward of Madison.

Spooner Clubs In every county in the state Spooner clubs are being formed and the prospect is now that they will succeed in the purpose they were formed for, that of electing members of the legislature favorable to Senator Spooner's return to the senate. Porte Turns Down REQUEST OF ZIONISTS

Offers Minor Concessions, Which Do Not Meet With the Approval of Dr. Herzl.

Vienna, Aug. 8.—Dr. Theodore Herzl, founder of the Zionist movement and head of the Palestine Association, and Dr. Wolfson, president of the Jewish colonial trust, have returned here from Constantinople. They report that their conferences with representatives of the sultan with reference to the proposed settlement of Zionists in Palestine have been without result.

In reply to Dr. Herzl's written statements on the subject, the sultan expressed sympathy with the Jews in their purposes, and named certain concessions which he would grant. These, however, did not meet the requirements of the Zionists.

Dr. Herzl says he still has hopes of being able to convince the Porte of the benefits which would result from the settlement of Jews in Palestine.

OUST SISTERS FROM SCHOOLS

Gendarmes Expel the Nuns Amid Much Excitement.

Brest, Aug. 8.—Exciting scenes occurred at the expulsion of a number of sisters from their school at Landernau, near here. A special train conveyed detachments of soldiers to Landernau, where a body of gendarmes had been mobilized. A large crowd assembled at the school and surrounded the soldiers in the square in front of the school. When the commissary of police arrived, accompanied by a locksmith, the people protested vigorously, shouting:

"Long live the sisters and liberty," "Down with the ministry!"

Women threw themselves to the ground in front of the horses of the gendarmes. The commissary ordered the sisters to open the school door. They refused, and the locksmith picked the lock and broke windows amid denunciations of the crowd.

The last examinations of the summer school at Madison were held today.

IMMENSITY OF CEMENT WORKS

BUILDING OF GREAT TAR ROOF IS SLIGHTLY DELAYED.

WAITING FOR LOST GRAVEL

Much of the Machinery is on Hand—Foundations for Engine Are Being Built.

Great strides in advance have been made on the cement, post factory in the past two weeks. The roof is nearly finished, the boiler and a part of the machinery is here, and the foundations are being laid for the engine. In a week or two the crusher plant will be under way.

There is only a slight pitch in the roof and from a distance it seems perfectly level, stretching out like an immense dancing floor eight hundred feet in length. Running the length of the middle of this floor is an elevation, the surface of which is almost level, which gives opportunity for hundreds of windows on its sides.

Delay in Transportation It would be possible to begin the application of the tar and gravel roofing layer if the gravel had come, but it has been lost somewhere between the Knickerbocker works, where it was secured, and the post factory. The surface is now being roofed with tar paper in preparation for the outer coating. Inside the building the present occupation is largely that of preparing for the machinery, a part of which is already here. The engine has not yet arrived but the foundations of stone are being laid.

Monster Boiler An internal furnace is a part of the equipment that has already arrived. It is a monster affair, cylindrical, seven feet in diameter and fourteen feet long, with the furnace set within the boiler. The boiler is of one hundred horse power, built by the Freeman & Sons Manufacturing Company of Racine. The model is the same as one which is in use by the Barb Wire factory and similar, although not so large, to the furnaces which have been ordered by the Woolen Mills company and the Jamesville Machine Co.

Parts of the presses for the cement are also here from the factory of Thomas Albright, Goshen, Indiana. There will be five of the hydraulic presses set in a row by the side of the tracks of the travelling carrier which will convey the posts from the presses to the drying rooms.

Screening Plant Above the factory on the hill will be the screening building 24x72 feet in size. Here the sand and gravel will be taken up, washed, screened, dried, and the sand sent down a spout to the main building. One elevator in the building will handle the sand and another the gravel. It is proposed at a later date to install a crusher to handle the coarser gravel and rock, but for the present there will be an abundance of sand to meet all possible needs.

PLANS READY FOR SCHOOL ADDITION

WILL GIVE TWO NEW ROOMS

L. L. Hilton Is the Architect, and Plans Will Be Open for Bids for One Week.

Plans for the new addition to the Adams school have been completed by L. L. Hilton, the architect, and they will be ready for the contractors to submit bids after tomorrow. WARM WEATHER HELPS TOBACCO

SPINDLING LEAVES BROADEN OUT UNDER SUN'S INFLUENCE.

CONTINUED HEAT IS NEEDED

Under Rainy Conditions Plants Are Not Deep Rooted and Are Easily Damaged.

The last week of warm dry weather has caused a great change in the outlook for the present tobacco crop much of which had grown fast and spindly, the leaves being long and narrow and not of much account. The warm weather has caused the leaves to broaden out considerably and the result will be a good, fair crop.

Many of the plants have matured too early and in some cases there are but two or three leaves on a stalk that are fit for wrappers. The warm weather however will work a great change in this respect and cause the leaves to widen out.

In many localities where the plants have spindled up, the roots were not deep seated and great damage was done by the wind and rain, which laid the plants down flat to the ground. The only hope for these plants is a season of dry, hot weather which may induce them to resume their normal position and help them to a good, healthy growth. Some few crops are about ready for harvesting but the great majority of them will not be ready for a week or two. The business in old leaf is at a standstill. The farmers have practically no leaf to sell and buyers of 1900 and 1901 tobacco consider the outlook for the growing crop exceedingly precarious and naturally show no inclination to part with their holdings. The opinion among the dealers is that the 1902 crop will not come up to the average either in quality or quantity.

In the Connecticut valley it is generally admitted that the crop is late on account of the absence of warm bright weather and also that the earlier set plants were very seriously damaged by the hail storm which visited this section on July 15.

It is true that this storm, as is characteristic, did not extend generally over the entire tobacco district, but its path was through a section in which a very large portion of the tobacco crop is raised and the damage was severe accordingly. The injury was confined largely to the older plants, the late set escaping with comparatively little or no damage. But it is doubtful if they enjoyed entire immunity during the second severe hailstorm which occurred last Monday night. This storm was one of the worst in the memory of the oldest inhabitant and many acres of tobacco were literally cut to pieces. Houses were damaged and all kinds of vegetation were destroyed. Taken all in all, the lot of the tobacco farmer has not been one of unalloyed joy this season, and a few more setbacks would fill their cup of woe to the brim. Already it is evident that the yield of wrapper leaf has been considerably curtailed. The prospects of the remains of the crop will depend entirely on suitable hot dry weather and a freedom from hail storms.

In New York state it is generally conceded that with storms, washouts and other drawbacks the tobacco farmer will be entitled to all he can get from the present crop which does not give promise of being a record breaker. So well is this condition known that buyers of old leaf are by no means scarce, and although their purchases are necessarily few and individually unimportant, they still regard the search as time well spent.

In Pennsylvania a week of continuous good tobacco-growing weather has cheered our farmers. It was warm enough and moist enough to keep the crop a moving right along. So far, no serious drawbacks have affected the crop. Several times the rains were rather heavy and dashing in their character, and in several places there was some hail, but not enough to do much harm. What the future may have in store remains to be seen.

CROWD RIDES ON INTERURBAN ROAD

BIG HOG SALE NEAR ROSCOE

Buyers from Many States Bought Col. Lovejoy's Stock at Fancy Prices.

Hog buyers from all parts of the length and breadth of the United States helped to boom the business for the interurban road between Rockford and Beloit on Wednesday, the day of the great hog sale on the Lovejoy farm, a few miles beyond Roscoe.

From all over the country buyers assembled to look over the stock which was placed on sale by A. J. Lovejoy & Son. According to the statement of one of the leading hog breeders there the sale took rank as one of the most important sales of Berkshires that was ever held in this country. About six hundred were present at the sale and a large number of these had gathered for the purpose of buying, although there was the usual percentage of sightseers.

Costly Hogs Some fifty hogs were on sale all told. One batch of fifteen brought in about \$3,000 and single pieces of stock went at very fancy figures. Among the states represented by the buyers present were California, Michigan, Kentucky, Iowa, and Nebraska, some of them having come from their homes for this one sale.

It was something of a problem to accommodate so many guests on the farm but the First Methodist church of Roscoe had taken charge of the dinner, which was served on the lawn before Col. Lovejoy's residence, and the guests expressed nothing but appreciation of the hearty fare which was set before them.

KING EDWARD VII THANKS SUBJECTS

APPRECIATE THEIR LOYALTY

All is ready for the Coronation on Saturday, which is planned to be a brilliant affair, in spite of its postponement.

London, Aug. 8.—Rejoicing over his recovery and mindful of the sympathy of his people during his illness, King Edward has made public a letter to all his subjects, in which he thanks them for their loyalty and expression of good will.

The proclamation is remarkable for its spontaneity and personal nature. It is also unique in that a sovereign of a mighty nation returns thanks to all his subjects for their prayers and good wishes for his welfare.

The proclamation is entirely the work of his majesty, and is his own conception. It is contained in an autograph letter to the Hon. C. T. Ritchie, the home secretary, and follows the precedent established by Queen Victoria.

With the exception of the weather, which continues still and showery, coronation prospects for Saturday are of the brightest.

King in Excellent Health.
Reports from Buckingham Palace, both official and unofficial, state that the king's health is excellent.

The king is now quite ready for the ceremony. All the beautiful gold plate is on the altar, and it is really magnificent. Many of the pieces are of great historical value. The two chairs, or thrones, upon which their majesties will be seated during the greater part of the ceremony are very fine. The one for the queen has been especially made. The chairs are big and roomy and are upholstered in ruby velvet, with a small, tasteful design of a rose, shamrock and thistle. The top of the chairs is surmounted by a crown with lion and unicorn. Two other chairs on the right near to the royal box are upholstered in royal blue velvet.

Priceless Cushions.
The cushions upon which their majesties will kneel are covered with thick white satin with beautiful golden tassels. Edward the Confessor's chair is in its place. Resting on a priceless Indian carpet immediately in front of the altar is the faldstool of crimson velvet with white satin cushions. Here their majesties will receive the sacrament.

On the right hand of the coronation chair are three chairs, the middle one being very large, gilded and upholstered in crimson broadcloth silk. This is for the Prince of Wales. Of the smaller chairs, the one on the right is for the Duke of Connaught and the one on the left, which is amply cushioned, is for the Duke of Cambridge.

In the Royal Box.
In the royal box the members of the royal family will sit according to precedence. For instance, the Princess of Wales will sit on a larger chair than any of the others. Next to her comes the Princess Louise, the Duchess of Fife, Princess Victoria, and Princess Charles of Denmark. Then come Princess Christian, Princess Louise, the Duchess of Argyll, Princess Henry of Battenberg and the Grand Duchess of Mecklenburg-Strelitz.

Last in the row over the royal box is the king's box. The ladies that are seated there will all be provided with crimson gold chairs.

Placing the Crown.
It is planned to secure a magnificent light effect at the moment the crown is placed on the king's head. On the six columns which immediately surround the central portion of the abbey, where the coronation takes place, rows of electric lights have been attached, which will be turned on as the archbishop crowns the sovereign.

An alteration has been made in connection with the golden canopy which will be carried over the queen during a part of the service. It is now settled that the four standards which will support it shall be borne by pages, rather than by men, too, but the four Duchesses of Portland, Marlborough, Montrose and Sutherland will hold golden cords and tassels which hang from it.

Relieved of Fatigue.
So practically they will be supporting her majesty, as originally intended, without undergoing the fatigue of carrying the canopy, which is far heavier than many people think. The canopy itself is of the very thickest and costliest of gold lined with satin, so it will be quite understood it is no easy matter for four women to carry it. The most stringent rules have been laid down for the dispersal of the enormous crowd in the abbey after the ceremony to avoid the possibility of a dangerous crush.

Boston, Aug. 8.—Professor John Jay Watson, a well-known musical director and author of many popular works, is dead. He was born in 1830.

Prince Henry a Musician.
Prince Henry of Prussia, whose march through the United States in such quick time will be remembered, has appeared as a composer. A march by him in ordinary time, called "The Parade March of the Marine Division" has just been published in Leipzig.

WILLARD REPORTS ON ILLINOIS CANALS

IMPROVEMENTS AT LAGRANGE

During the Year Minor Repairs Have Been Made—Suggests Day Labor Be Employed to Complete Illinois and Mississippi Canal.

Washington, Aug. 8.—Major Willard of the corps of engineers, who is in charge of the improvement of the Illinois River and the work on the Hennepin Canal, reports there has been expended up to June 30, 1902, \$1,445,597.80. Owing to the failure of the river and harbor transportation bill last year the work during the fiscal year ended June 30 last was confined to widening the channel to 200 feet between Kampsville and the mouth of the river, removing snags and necessary care and repair of the plant.

Navigable Channel.
It is proposed to apply the funds now on hand for the purpose of maintaining a navigable channel of seven feet between Copas Creek dam and the mouth of the river, widening the same to 200 feet, removing snags, dredging the channel from the bar at the mouth of Macoupin Creek and repair of plant and property, and in making such local surveys as may be necessary from time to time.

Major Willard submits with his report from C. V. Bralnard, assistant engineer, concerning operations upon the Illinois River. Mr. Bralnard states that the work has consisted of finishing, widening the channel from 150 to 200 feet between Kampsville lock and the mouth of the river; clearing the river of snags and care and repair work of the plant. The work of widening the channel was completed on Aug. 16.

Lagrange Lock.
Regarding Lagrange lock and dam Major Willard reports several minor improvements near the upper entrance of the lock and states that during the year \$6,294 was expended. The Kampsville lock and dam, which were operated during the year by hired labor, are reported in good order. The improvements at this point during the year cost \$5,785.

The latter part of the report is devoted to the Illinois and Mississippi Canal—after stating the object of the canal to be to furnish deep water navigation from Lake Michigan to the Mississippi River the report gives a historical review of the work of the engineers to date and then recommends that the remaining excavation be done by hired labor, instead of under contract.

Spend \$5,000,000.
Major Willard calls attention to the report of Major W. J. Marshall, his predecessor, in regard to the construction of a revetment along the route of the canal. Even if only animal traction should be used, the banks must be revetted to preserve the navigability of the canal. This has been demonstrated in a practical way during the past year.

During the last fiscal year the total expenditure upon the Illinois and Mississippi Canal amounted to \$705,605, of which \$151,213 was incurred upon the eastern section, \$215,574 upon the western section and \$208,817 for the feeder line. To date the total expenditures upon the canal amount to \$5,066,133.

CONTRACTOR BLAKE MAY USE HIS OWN TEAMS.

SIX ARE NOW ON THE ROAD

Work Still Delayed by the Complicated Situation, But Starts Monday.

This morning a delegate was sent by the union teamsters on the Milton avenue job to interview Edward Blake in regard to going back to work again. Their proposition was that they would return to the work if the non-union men were taken off entirely. Mr. Blake held them off until one o'clock for an answer. At that time it was impossible to give one and the condition of the strike remains practically unchanged, although it is probable that the steps that were taken this morning will hasten a settlement between the teamsters and the contractors.

New Element in Situation
When Mr. Blake heard from the men this morning it introduced an entirely new element into the status of affairs between Mr. Blake and the striking men. He had gone ahead on the supposition that the men were out to stay for some time, and had sent his foreman, John MacConnell, to Madison to get the necessary teams to go on with the work. The teams were to be driven down from Madison, to arrive here on Sunday and begin hauling from the crusher on Monday.

Unlooked For
The action on the part of the strikers was unlooked for and it was hard to decide what action to take. His answer was that he would let them know his decision at one o'clock and in the meantime he telephoned to his brother to find out the situation in Madison. He found that everything was progressing well there and that six or seven teams had been secured and would be here to begin hauling the first of next week. He then reflected that the strikers had given no notice when they went out, and in return he was in no wise bound to inconvenience himself to get them back. They had stopped at a time when the weather was both cool and dry, the best for hauling this season, and it had blocked his work to a certain extent.

Still Firm
Under the circumstances no agreement was arrived at with the union men. The Fifield team did not report for work this morning, but a few other teams have been secured and no immediate change in the situation is necessary so far as the contractor is concerned.

Men To Go To Madison
During the past two days Edward Blake has taken six men off the grading and paving work on Milton avenue and sent them to Madison to help on a sewer job in that city. He has found difficulty in getting men enough in that city to meet the demands of his contracts and it seems best to put the men for a few weeks, especially during the partial tie-up here, on the other job. Even as it is he has not obtained as many men as he could use.

ROCKFORD BOYS AT LAKE WAUBESA

Y. M. C. A. Juniors on Their Annual Outing Are Having a Merry Time.

According to the report given by A. G. Andrews, who was in the city for a few hours this morning the Rockford Junior Y. M. C. A. camp is having a "rippling good time." Mr. Andrews had been called to his home over night and was returning to the association camp at Lake Waubesa which opened last Monday, as will be remembered by those who saw and heard the boys when they and the Mineral Point choir boys were both on the streets at the same time.

All counted there are fifty-seven in the Rockford camp at Lake Waubesa. Of these the majority are juniors, but there are several seniors, a secretary or two, and three cooks. The whole party is divided into companies of nine juniors each, each of them under a senior who is responsible for the safety and the good conduct of his squad. In this respect the camp is similar to the organization that will be observed by the local Y. M. C. A. juniors on their coming trip, save that they will have five in a squad.

The Rockford boys will be in camp for nine days, making eleven days out, counting the days going and returning. Next week when the juniors break up camp, their tents will be undisturbed and will be immediately filled by seniors from the same association. Up to the present time some fifteen of the older members have planned to go into camp.

ST. MARY'S TO HOLD A FAIR

GUARD OF HONOR WILL HAVE BIG PICNIC.

HORSE RACING AND GAMES

There Will Also Be a Fair by the Young Ladies of the Congregation.

Last year's day of picnicking and races which was given at the Fair Grounds by the Guard of Honor of St. Mary's church will be repeated on Wednesday next at the same place. From morning to night there will be a round of games, sports, races, and there will be everything from a glass of pink lemonade to an envelope giving the owner a chance at a prize, the nature of which will be unknown until the number is taken out from within the folded paper.

Given By Guard of Honor

About two hundred of the men of the church make up the Guard of Honor of St. Mary's church which will have the entertainment on the thirteenth of this month in charge. The proceeds of the picnic and races will go into the treasury of the church. The young ladies' sodality of the church will join hands with the men and will conduct refreshment tents and booths of all kinds on the grounds.

Exciting Horse Races

At the picnic of the T. A. & B. at Edgerton a great deal of rivalry was aroused among the owners of certain horses and it is probable that the races in that city will also be entered for the races next Wednesday. The free for all will be one of the big races of the day and a liberal purse will be offered.

Prizes will also be offered for the other races. Aunt Laura with a record of 2:16 and Nicholas J., 2:14 1-4, are among the fast horses already on the entry list, and many other speedy horses are expected to compete on the local track.

Prizes For Foot Racing

Baseball, track and field events, and other games and sports will occupy the rest of the day. In all of these big rewards will be offered to make the race worth running. From the time that the crowd will assemble at the ground at ten o'clock in the morning until late in the evening there will be no break in the games. Something will be going on every minute.

Dinner and supper will be served on the grounds by the young ladies of the church, and throughout the day there will be an opportunity to get refreshments of all kinds at the various booths. In addition to the refreshment booths there will be stands where other goods will be on sale, and some novel drawing stands have been promised where a man may obtain anything from a stick of chewing gum to a hatchet, according to the number which he happens to secure.

BELOIT HOTEL IS DOWN ON ACTORS

REFUSES TO RECEIVE FOLLOWERS OF THE SPIRIT OF THE ART.

ACTORS ARE INCONVENIENCED

Line City Hotel Accommodations Inadequate - Theater Troupe Patronizes Boarding Houses.

Hotel accommodations are at a premium in Beloit at present and no one realizes it more than does Manager Harry Bubb of the Ferris Comedians, who are in Beloit for a couple of weeks' rehearsals in preparation for the opening of the fall season, the first week's stand or which will be played at the Line City during the fall week, beginning the eighteenth of this month.

Twenty-six members of the company are in the city and they are not receiving the most favorable idea of the accommodations of that hustling

manufacturing town. "One hotel absolutely refuses to entertain theatrical troupes under any circumstances, and the others, such as they are, are wholly inadequate to meet the demands of the company. The result is that it has been found necessary to farm them out here and there all over the city wherever rooms for one or two could be secured."

Strong Cast
From the present indications this year the company will be as strong as any that ever travelled under the name of the "Ferris Comedians." The members of the company from the leading man and woman down to the infantile specialty artist have attacked the rehearsals with a vim, despite the quarters in which they are situated, and a more successful season is looked for the famous "twenty-three" company than any of their past years' trips.

Wrinkles are smoothed away by its healing touch. Brany tired and depressed people will find a cure in Rocky Mountain Tea made by the Madison Medicine Co. 35 cts. Smith's Pharmacy.

Joliet, Ill., Aug. 8.—Adam Grier, a convict from Chicago, who killed his cellmate, William Woods, another Chicago man, in February, 1901, is reported to have escaped from Chester prison, where he was taken some months ago on the theory that he was insane. Grier's crime was atrocious. While marching to the cells he suddenly drew a knife and fatally stabbed Woods. There was no known cause for the act. Grier was kept in solitary confinement for months and was finally transferred to Chester without trial. It is reported he has been a fugitive for two weeks. No details of his escape have been made public here.

MAGNOLIA

Magnolia, Aug. 8.—Mrs. Oscar Sales passed away at her home July 31st after a long illness.

Mrs. Ida M. Sales (nee Bahr) was born May 5th 1872 and was married March 27, 1895 to M. Oscar B. Sales. After marriage they took up their residence in Center for five years and then moved back here where she resided until her death.

The funeral services were held last Sunday afternoon in the M. E. church, conducted by Rev. Webster Millar of Evansville. A large number of sympathizing friends were present. It is not often that as large a procession is seen in our community as was seen that afternoon as it wound its way to the cemetery in West Magnolia where the last words were tenderly spoken by the officers of the Royal Neighbors of which she was a member.

Her health began to be impaired about a year ago when she caught a cold and it developed pulmonary tuberculosis. Through all the months of her sickness she was hopeful that she would recover her former strength but this was not permitted and the end came at last.

Besides a loving husband she leaves affectionate parents, sisters and a brother who greatly mourn her absence. One sister died some years ago.

The Mission band will meet at the parsonage next Saturday afternoon.

During the storm Wednesday night of last week, lightning struck C. S. Thomas' house and did the dirtiest work done here in that line for some time. It knocked off the chimney, went down through the ceiling and divided, going through every room in the house, tearing off paper scorching picture frames and playing all sorts of havoc with everything in the house. Fortunately no one was in the house at the time.

Mrs. Emma Shuman, Zella and little Charlotte Hudson of Alliton have been spending a few days here.

BRODHEAD

Brodhead, Aug. 8.—Twenty young lady friends gave Miss Nettie Bucklin a farewell party last Thursday afternoon. Miss Bucklin, with her parents and brothers and sister, have for some time been making preparation to move to their new home in South Dakota and on this account it was decided by her many friends that it would be appropriate to give her a party which they did at the home of Mr. and Mrs. R. J. Bucklin. The time was spent in pleasant conversation and a splendid supper, consisting of a great variety of articles, was served and indeed much enjoyed. Some selections of vocal and instrumental music added not a little to the pleasantness of the occasion. It was a pleasant occasion and indeed much enjoyed by all present. Still there lingered in the minds of all just a little sadness to think that Nettie would soon leave.

A number of good friends of Mr. P. P. Northcraft gave that happy gentleman a most happy surprise party Monday evening, which for a genuine good time is not often excelled. It is the custom of Mr. Northcraft to drive out to the farm each day. He took the usual drive on Monday and during his absence, Mrs. Northcraft and daughter Miss Grace, planned and successfully carried out a surprise party. The guests arrived at eight o'clock and the evening passed pleasantly with conversation and stories. Choice refreshments were served and the evening passed merrily. Mr. Northcraft was the recipient of a handsome chair and sherry and wine glasses.

A Friend's Advice WILL OFTEN HELP YOU GREATLY

Read What a Janesville Citizen Says

You may hesitate to listen to the advice of strangers, but the testimony of friends or residents of Janesville is worth your most careful attention. It is an easy matter to investigate such proof as this. Then the evidence must be conclusive. Read the following:

Mr. H. W. Rodgers, carpenter, of 210 South Main street, says:—"My wife had kidney complaint and rheumatism for five years, suffering a great deal from pain across the loins. Dean's Kidney Pills, sold by the People's Drug Co., brought much longed for and gratifying results. At first there was no visible change and she came to the conclusion that they were like all other remedies she had tried, but finally the aching and the distress in the small of her back disappeared."

Kitchener May Marry.

London, Aug. 8.—Again it is reported that General Lord Kitchener contemplates a speedy matrimonial alliance.

Look Ahead, Girls.

If young girls would look ahead it would sometimes save them from serious collision with the men they marry. It is here that ignorance is almost a crime. The young husband cannot understand it when the wife changes to a peevish, nervous, querulous woman. And the young wife does not understand it herself. She only knows that she is very miserable.

If ever there is a time when nature needs help it is when the young girl is adjusting herself to the new conditions of wifehood. Dr. Pierce's Favorite Prescription makes weak women strong and sick women well. It promotes regularity, dries debilitating drains, heals inflammation and ulceration, and cures female weakness.

Sick women are invited to consult Dr. Pierce, by letter, free. All womanly confidences are guarded with strict professional privacy. Write without fear or fee to Dr. R. V. Pierce, Buffalo, N. Y.

"I will drop you a few lines today to let you know that I am feeling well now," writes Miss Annie Stephens, of Belleville, West Va. "I feel like a new woman. I took a bottle of the Favorite Prescription and Golden Medical Discovery. I have no headache now, no backache, and no pain in my side any more. No bearing-down pain any more. I think there is no medicine like Dr. Pierce's medicine. I thank you very much for what you have done for me—your medicine has done me so much good."

Dr. Pierce's Pleasant Pellets cure biliousness and sick headache.

Mercury and Potash

ONLY SERVE AS A MASK FOR
CONTAGIOUS BLOOD POISON

They hide its repulsive form, and this serpent disease, stupefied by these drugs, lies dormant until the effects have worn off or treatment is discontinued, when it breaks down the mask and becomes as full of life and venom as ever. Mercury and Potash may dry up the sores and eruptions, but at the same time they drive the poison back into the blood and system, where it feeds upon the tender tissues, membranes and nerves, finally breaking out in most disgusting sores and even destroying the flesh and bones.

Mercury and Potash cannot accomplish a radical and permanent cure. They have a palliative but not curative effect upon this treacherous snake-like disease. These drugs produce mercurial Rheumatism, destroy the teeth and corrode the membranes of the stomach and bowels, causing inflammation and dyspepsia, nervousness and general derangement of the system.

S. S. S. is a Specific for Contagious Blood Poison, and the only antidote for the peculiar virus that spreads so quickly throughout the system, corrupting the blood and infecting every organ and fibre of the body.

S. S. S. destroys the serpent, and eliminates every atom of poison from the blood, it makes a thorough and radical cure of the disease, and at the same time builds up the general health. S. S. S. contains no minerals of any kind, but is a purely vegetable remedy and we offer \$1,000 for proof to the contrary.

Write us about your case and our physicians will cheerfully advise without charge. Our home treatment book will be sent free to all who desire it.

GOLFERS PLAN AN OPEN MEET

WOULD INVITE PLAYERS FROM OTHER CLUBS.

THEY WANT FOUR FLIGHTS

Tournament Would Be Similar to the One at Milwaukee—Club Suppers.

The handicap and games committee of the Sunnyside Golf club have a home tournament under consideration. The plan they think of adopting is about the same as the Milwaukee Country club is running their open tournament under.

What the club is anxious to do is to get at least thirty-two players to start in the qualifying round which would give them four flights of eight players each. The eight lowest scores in the qualifying round to constitute the first flight, the second eight the second and so on down the list. This would give all the players an equal chance and put them in a class of players of the same standing as themselves so that no handicap is necessary to put them on equal footing.

The members who enter in this contest which will take the place of a number of events already scheduled and in which there is not much interest taken, will pay a small entrance fee which will be used for the purchase of a cup for each flight and also to purchase a cup for the lowest score in the qualifying round.

Popular Idea These tournaments are quite popular in other clubs and should be here. The club is anxious to get the event started next Tuesday and a round in the contest will be played each succeeding Tuesday until the match is played out.

Club Suppers The club suppers which have been so popular in the past and have been allowed to die out this summer will be taken up again and made as popular as they formerly were. If the social features of the club are allowed to die out the members outside of those who play golf will soon lose all interest in the club, and something should be done to revive this interest.

Y. M. C. A. TEAM PLAYED CLINTON

Excellent Hitting Made by the Local Boys Of St. Young.

Janesville Y. M. C. A. players had the honor at Clinton yesterday, of securing more hits off St. Young than any other team that has played the Clinton Maroons this season. Notwithstanding this, the score resulted nine to two in favor of the Clinton boys.

Up to the seventh inning the two teams stood even, giving a fine exhibition of ball, with the score standing at two apiece. Then the local fielders went up in the air and the Maroons bunched their hits with such success, that at the close of the inning, they had secured a lead of five runs. In the next inning they got several more balls past the association men and had to their credit two more runs, leaving the score as it was at the end of the game, 9 to 2.

Could Hit The Ball. The local men are exultant over the success they achieved against the Clinton pitcher, St. Young, who is commonly regarded as one of the most promising amateurs in this part of the state. In speaking of him, one of the men said that he was "long and lank, with a delivery like a cannon ball, that looked, until it was past, like a pumpkin. He simply leaned two thirds of the way an then dropped the ball into the catcher's mitt, just out of the way of the bat."

The batteries were Sullivan and

Carle for Janesville, and High and Young for Clinton. The Clinton team is also a Y. M. C. A. team and the local men were given a very cordial reception by their opponents.

Series Cancelled. Owing to the team's failure to secure adequate support from the city, the series of six games which was planned to be given in this city, has been cancelled. Several tickets had been sold but there was not the hearty enthusiasm exhibited by the townspeople which was needed to guarantee the success of the series. Plans are now being made for two games to be played during the carnival week. Milton, Stoughton and Clinton are among the teams that are under consideration.

SLIPPED AND FELL BENEATH THE CAR

Harry Baker's Remains Will Be Brought to Janesville This Evening—Funeral Tomorrow.

Harry Baker's tragic death in Chicago, yesterday, occurred while he was on his way to his boarding place at 2391 Forty-second avenue. When alighting from a Union Traction street car at the corner of Forty-second and Irving Park avenues he slipped and fell beneath it. His remains will be brought to this city over the Chicago & Northwestern road this evening, arriving here at 8 o'clock.

Funeral services will be held from the home of Henry Woodstick, 102 Locust street tomorrow afternoon at 2 o'clock. Rev. J. H. Tippet, pastor of the Court St. M. E. church, will officiate and the interment will be in Oak Hill cemetery.

MANY SOLDIERS ARE GUILTY

Hundreds Punished by Court-Martial in the Philippines.

Washington, Aug. 8.—Mall from the Philippines contains summary of the results of court-martial cases in the islands. It shows that the accused in 227 cases were dishonorably discharged, in 231 cases forfeited pay and allowances, in 115 cases suffered other punishment, in 110 cases were fined and in 320 cases were sentenced to confinement.

The charge included murder, manslaughter and assaults. Most of the charges, however, were for trivial offenses and were based on complaints by native Filipinos.

The record shows that the military courts imposed severe sentences for all serious breaches of discipline, in some instances inflicting the death penalty.

Intoxicating Beans. Among the peasants of southern Italy, Sicily and Sardinia a curious malady has been noted by physicians, which is caused by eating beans. One of the most remarkable effects of the malady is a species of intoxication resembling that produced by alcoholic drink. In some cases persons predisposed to the malady are seized with the symptoms of intoxication if they pass a field where the bean plant is in flower, the odor alone sufficing to affect them.

CARL BOEHM IS BADLY HURT

HIT ON THE HEAD BY IDE

Husband of the Woman Recently Killed, Is Assaulted while Driving

Because he tried to pass Pliny Ide, while he was driving across Monterey bridge yesterday afternoon, Carl Boehm, whose wife was killed by the cars on Wednesday was the victim of an assault on the part of Ide.

Used a Pitchfork. Boehm was struck over the head with a pitchfork by Ide and a scalp wound three inches long was inflicted. He was taken to Dr. Woods' office where it was found necessary to take a number of stitches to close the cut.

Tried To Drive By. The trouble was caused by Boehm asking Ide, who was crossing Monterey bridge with a load of manure to allow him to pass. Ide was not willing to let Boehm pass and became quite excited. When they reached the south end of the bridge Boehm tried to pass Ide, who stood up on his wagon and struck Boehm over the head with his fork cutting it open. Undertaker D. Ryan was at the Boehm home when he arrived and had his man take him in a buggy to Dr. Woods' office.

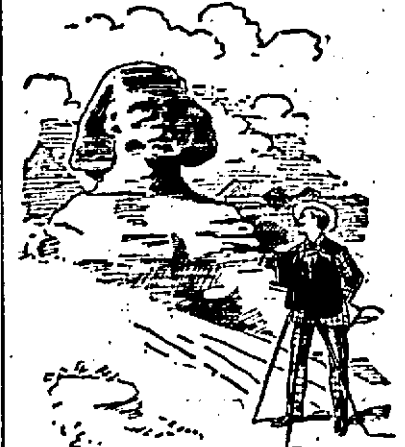

May Be Arrested. Ide will probably be given a chance to explain to Judge Fifield why he struck Boehm.

Our Rivers Flow Southward. A writer in one of the scientific papers calls attention to a fact that few persons perhaps stop to think about; it is that nearly all our rivers flow toward the south. This is a matter of the utmost importance in many ways. A river that is frozen at the mouth, while open and overflowing at its head waters, would give almost incalculable trouble. The whole history of this continent would have been different if the Mississippi had found its outlet in Hudson Bay.
